## INNO MISSION STATEMENT

### *In nutshell:*

Inno is a family owned business supporting companies and public institutions in creating individual interiors and well-being with an original collection of furniture and interior accessories.

### *The story:*

With strong roots in **innovative** product design and **responsible** production Inno produces design furniture and accessories as **“tools for architects”**.

Innovation itself, however, is not our primary target, but providing hands-on service and original products to architects for creating unique interiors. Every piece of furniture is produced according to customer’s order, therefore customized designs are a natural part of Inno’s operations supporting different brand identities.

Responsibility for the environment and for the people is a part of our daily processes. Inno is committed to manufacture products with long life cycle, recyclable materials and minimal emissions. We follow a holistic approach in sustainable development being certified according to ISO 14001-2015 environmental management standard.

Since 1975 when the company was founded by Harri Korhonen, Inno’s furniture and interior accessories have been chosen for brand concepts, business premises, cultural and public buildings, airports and hotel chains all over the world.
