

## Embrace your space, together or alone

Office and meeting spaces are changing rapidly and the best way to keep up with the phase is on wheels, isn't it?

Inno's iconic Aura High Back Chair on wheels is a solution for mobility in working and meeting spaces.

The friendly form welcomes you and offers an efficient shelter when a quiet moment is needed or social distance appreciated.

This award winning design by Mikko Laakkonen is more relevant than ever, and can be upholstered also with antibacterial fabrics.

The side table in front of Aura is Bondo Laptop, design by Harri Korhonen. It belongs to a family of elegant, lightweight coffee and side tables.

Bring the best from office to home, with a cozy feeling

Small Lab Y+C chair is one of the many options in Lab series designed by Harri Korhonen perfect as a home office chair.

Lab Meeting L ZXLB chairs (image below) offer extra comfort and is generous in size with armrests in oak, ash or birch. You may combine it together with Lab XL Sofa and Easy Chairs for an overall cozy feeling.
