# COAT RACKS

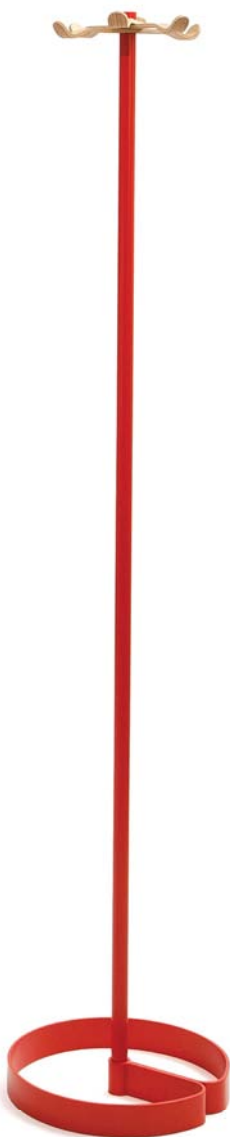

## Naula

The totally wooden coat rack Naula has pegs shaped as truncated cones that penetrate the stem, functioning as hooks. The free standing coat rack is available in natural or stained oak, mixed or monochrome.

**NAULA** design Mikko Laakkonen

## Propel ○ ● ●

Propel is a simple coat rack with a playful spirit. Its innovative structure and wooden hooks combined with fresh colours make it a much anticipated novelty.

**PROPEL** design Harri Korhonen

## Oka B

Oka B is a free standing coat rack equipped with 6 individually turnable soft hooks.

**OKA** design Teppo Asikainen

## Tripla 3 ● ●

Shape meets function in the free standing coat rack Tripla 3. You may use the crown for hanging and even store small items like keys, mobile phones etc.

**TRIPLA** design Harri Korhonen

## Tripla 1 ● ●

Shape meets function in the free standing coat rack Tripla 1. You may use the crown for hanging and even store small items like keys, mobile phones etc.

**TRIPLA** design Harri Korhonen

## Loop

Loop is a coat rack with a sculptural form. Because of its minimal design it looks nice even empty. It is suitable for all public and home interiors where only a small to medium capacity is needed.

Special colour (on request).

**LOOP** design Harri Korhonen

# Two Step

Two Step is a multifunctional coat rack for all kinds of public environments. Two Step is easily connected to each other, lightweight and remarkably well stackable, making it perfect even for temporary use. It has 12 hooks and four pegs for hats and can also be used with coat hangers.

**TWO STEP** design Timo Vierros

## Takit I

Takit I is a modular coat rack / space divider with diagonal steel wires. Equipped with six coat hooks and a shelf it comes in elements of one meter or assembled into a longer row.

**TAKIT** design Jouni Leino

## Takit II

Takit II is a modular coat rack / space divider with a back board. Equipped with six coat hooks and a shelf it comes in elements of one meter or assembled into a longer row.

**TAKIT** design Jouni Leino

# Takit Double

Takit Double is a two sided modular coat rack / space divider with optional backboard or diagonal steel wires. The coat rack comes in elements of one meter or assembled into a longer row.

TAKIT

design Jouni Leino

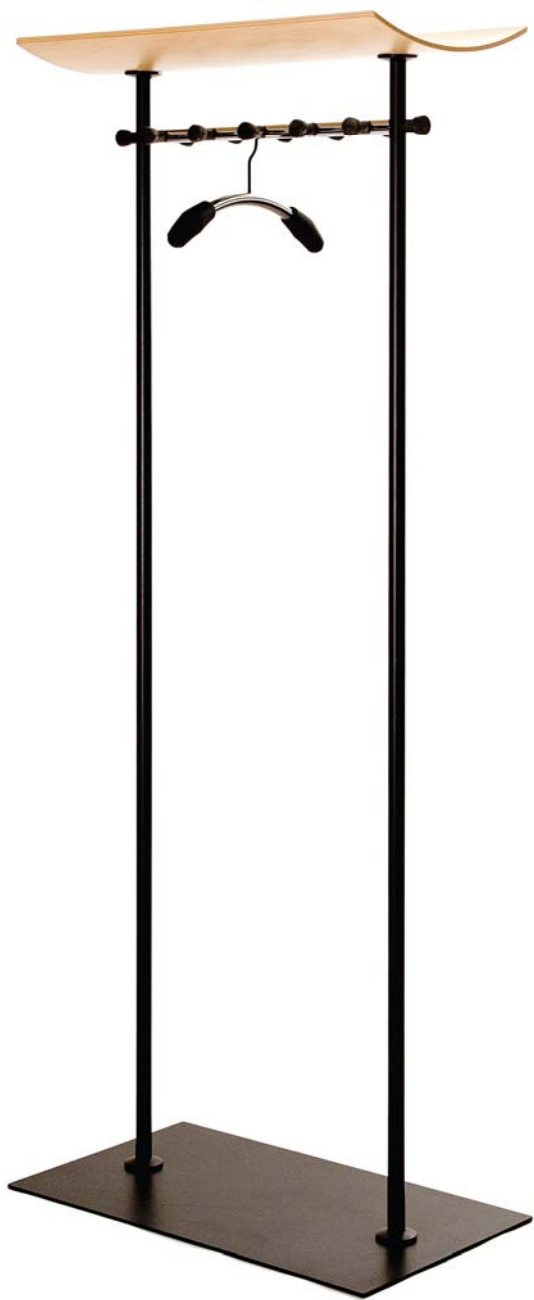

# Line-Up Single ● ○ ◐

Line-Up Single is a free standing coat rack equipped with an umbrella ring and friction rubber hooks for good grip.

**LINE-UP** design Harri Korhonen

# Line-Up Basic

Line-Up Basic is a free standing coat rack equipped with a shelf, a rail for coat hangers and friction rubber hooks for good grip.

**LINE-UP** design Harri Korhonen

## Wave

Wave is a coat rack equipped with wheels. With an optional cotton fabric it can also be used as a space divider.

**WAVE** design Ulla Koskinen

A sloth is hanging from a dark brown branch on the left side of the frame. Its right arm is extended, holding a white long-sleeved shirt. The background is a wall of light-colored horizontal wooden planks. The sloth's face is visible at the bottom left, showing its dark eye and mouth.

# COAT RACKS

## Turner

Turner is a clever and light wall attached coat rack with three wooden knobs for hanging clothes. One of the knobs is longer which allows the use of a coat hanger. The metal part between the knobs gives the coat rack an interesting and graphical appearance.

**TURNER** design Susanne Grønlund

Oka C ● ● ● ● ●

Oka C is a wall mounted coat rack equipped with 3 or 5 individually turnable soft hooks.

**OKA** design Teppo Asikainen

## Form

Form is a minimal coat rack designed to work in long rows or as a single unit.

**FORM** design Tomi Kapiainen

**Next** ● ● ● ●

The surface of the shelf has a special matte paint which gives the coat rack a warm, soft feel.

**NEXT** design Niklas Korhonen

## Viiva ● ●

Viiva coat rack is available in lengths 800 and 1200mm.

**VIIVA** design Pentti Hakala

## Q-Bic

Coat rack, mirror and drawer.

**Q-BIC** design Harri Korhonen

## Line-Up Wall ● ● ●

Line-Up Wall is a wall mounted coat rack equipped with friction rubber hooks for good grip.

**LINE-UP** design Harri Korhonen

A scenic landscape featuring a lake, a forest with autumn foliage, and a large, gnarled tree branch in the foreground. The sky is bright, and the water reflects the surrounding environment.

# HOOKS

Jr. ● ● ●

(Other colours on request)

Jr. is a stylish and friendly looking series of hooks and hardware for use in both public and home interiors. Easy mounting with double-sided tape or with screws.

JR. design Tomi Kapiainen

## Jr. Wood

Jr. Wood combines the functional design of Jr. hooks and toilet paper holder with the warmth of natural wood.

**JR.** design Tomi Kapiainen

**300**  (Other colours on request)

Classic 300, designed in 1975, is a timeless series of robust but minimalistic hooks, toilet paper holder, kitchen paper holder, grabrails and towelrails.

**300** design Maria Kuikka & Harri Korhonen

## Pro/K60

Pro/K60 "Catch hook" provides an innovative and easy way of hanging clothes and towels. The friction hook works well with all kinds of fabrics.

# Coat hangers

# COAT HANGERS

## Next-R ● ● ● ●

The surface of the coat hanger has a special matte paint which gives it a warm, soft feel. It also prevents the coat from gliding.

**NEXT** design Niklas Korhonen

## Takit-R

Takit-R coat hanger keeps always straight due to its flat hook.

**TAKIT** design Jouni Leino

# Catch

Catch coat hanger can be used with most coat racks.  
The friction rubber prevents the coat from gliding.

**LINE-UP** design Harri Korhonen

# 230 R

Elegant simplicity and functionality.

# Turner-R

Turner-R hanger is designed for Turner coat rack but it can be used with other coat racks, too. Made of aluminium it is stiff and light weight.

**TURNER** design Susanne Grønlund

# OTHERS

## Chill-Out

A personal looking floor lamp with two functions, a lamp and a space divider.

**CHILL-OUT** design Kapiainen & Peltonen

## Cruiser ● ○

Cruiser is a user friendly waste separation system for recycling office papers. It was designed and developed in co-operation with end users, first introduced in 1998. The popular Cruiser was followed by a new version in 2011, available in black or white colour.

**CRUISER** design Harri Korhonen

## Case ● ○ ○

In Case, form follows function: The minimal, stylish design gives the products a strong architectural impression. The main idea behind the magazine holders is to hide as much as possible of the restless front covers making interiors look more peaceful. The main focus in the brochure holders is on the other hand to keep a maximum area of the brochures visible, giving out as much information as possible. Case is available as wall mounted and freestanding.
